What are the implications of this disqualification, touching on all employees, such as progress chasers, who move about industrial operations, and who sometimes work in the office and sometimes are in the plant. 6. How well informed is the Board on the incidence of new research in regard to possible employment hazards in industrial production. What liaison exists with the Department of Health in this regard. 7. To what learned journals did the Board subscribe in the last complete year for which records are available. Please tabulate.
57. *Mr. Haggerty*—Enquiry of the Ministry—1. With respect to workers being exposed to new materials that are proving to be carcinogens, what continuing steps is the Minister of Health taking to evaluate new materials in this regard, and to re-evaluate older, more traditional materials in the light of new knowledge as to their carcinogenic and other hazardous properties. 2. What continuing liaison exists between the Research Laboratory of the Department of Health and the Workmen's Compensation Board in this regard. How are the Members of the Workmen's Compensation Board kept abreast of new hazards that might be expected to confront them in compensation cases. Is there a bulletin or journal advising them of new developments in these areas. 3. Will the Minister comment in particular on a letter dated April 3, 1969, addressed to the Medical Officer, Claims Department, Workmen's Compensation Board, 90 Harbour Street, Toronto, Ontario, with copy to Dr. Mastro-matteo in the Department of Health; relating to the case of Mr. Nelson Davison, age 56, of Rural Route No. 1, Port Colborne, Ontario; Workmen's Compensation Claim Number S 7805085; Diagnosis Carcinoma of the Left Middle Turbinate; letter signed by Dr. R. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area,

as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

58. *Mr. Peacock*—Enquiry of the Ministry—1. Is the inclusion of a day care centre in the builder proposals for the first phase of the Chapel Glen Village condominium development a condition of acceptance of a proposal by OHC. If not, why not. 2. What portion of the \$25,000,000 cost of construction of the first phase will be provided out of the 1969-70 advance to OHC. 3. What amount has been contributed by OHC to the recreational centre, and what is the total amount to be contributed. 4. Will the land on which the units are sited be included in the description of the common elements.

Is the Minister of Health aware that the level of pesticides found in fish from the lake is, according to Dr. Jensen, "alarmingly high". 4. Is the Minister of Health aware that Dr. Jensen's researches confirm that DDT is being passed to breast-fed infants of mothers who drink water from systems drawing from Lake Erie. 5. 48. *Mr. Breithaupt*—Enquiry of the Ministry—Will the Minister of Financial and Commercial Affairs table the results of any recent researches available to him on current levels of pesticide residues in lards, fats and shortenings. To what extent are organochlorines being stored in fats, and what are the implications for long-term tolerance in humans. Is the Minister aware of the publication this week of the Report of the British Association of Public Analysts on this matter. Are limiting quantities for the human intake of aldrin, dieldrin lead, arsenic and mercury prescribed in Ontario. If not, why not.
49. *Mr. Braithwaite*—Enquiry of the Ministry—In the light of the proposals made at the University of Toronto Conference on the Social Aspects of Science Policy, will the Premier now establish a permanent Advisory Panel of non-governmental experts, professionals from various disciplines, and lay citizens, to assemble data, make recommendations and generally assist the Government in its decisions in areas such as: urban development, the psychology of welfare, stress and overcrowding in relation to human health, mass transit and mobility studies, and general environmental maintenance.
50. *Mr. Newman* (Windsor-Walkerville)—Enquiry of the Ministry—Will the Minister of Transport take note of the experiment now being conducted by the Dallas Transit System on a Freon-vapour driven propulsion sys-

tem for buses; and will he make appropriate recommendations in due course as to the applicability of this approach to public transit systems in Ontario, in the continuing fight against environment pollution.

51. *Mr. Ben*—Enquiry of the Ministry—In view of the literature now being published on the effects of phytotoxicants, will the Minister of Health set up a committee of specialists to review the new research and report on the possible effects upon human health.
52. *Mr. Ben*—Enquiry of the Ministry—1. Are any of the new continuous coulometric titration detectors for sulphur dioxide pollution in use in Ontario. (d) Does any other Provincial Department share in the capital costs of the Moosonee Centre. (e) What was the cost-per-teacher of the residential accommodation provided for staff. Is this substantially in excess of comparable Federal accommodation, e.g. for doctors, nurses, service officers, etc. in the North. (f) What costs are covered by Federal/Provincial agreement. (g) Have computer-assisted instruction experiments taken place between the Centre and other centres in the United States, under the aegis of O.I.S.E., and, if so, who paid the costs. Was any part of this cost recovered from United States sources. (h) Was the Ontario Northland Transportation Commission involved in any arrangement for the use of its microwave facilities or wire circuits for the purposes of such instruction, and, if so, will the Minister table a copy of this agreement or contract. (i) Have discussions taken place between the Department of Education and the O.N.T.C. regarding the possible use of its microwave link to carry television to Moosonee, and if so, with what result.
55. *Mr. Peacock*—Enquiry of the Ministry—1. How many units of family and senior citizens housing has Ontario Housing Corporation proposed to include in the plans for development of the Malvern Project, now before the Scarborough planning board, and when will the first of these be ready for occupancy. 2. What population density (persons per residential acre) is envisaged in the plans before the Scarborough planning board. 3. How

does this density compare with the density recommended by the Metro planning board for the Malvern Project. 4. What are the specific services required for the development of the Malvern Project—sewers, schools, etc.—to which the Ontario Government will contribute, what is the total cost of each service and what is the proportion to be assumed by the province.

56. *Mr. Haggerty*—Enquiry of the Ministry—1. Is Carcinoma of the Left Middle Turbinate classified as an industrial disease. 2. On what grounds was claim No. S 7805085, Mr. Nelson Davison, aged 56, of R.R. No. 1, Port Colborne, Ontario, an employee of the International Nickel Company, Port Colborne, disallowed by the Workmen's Compensation Board. 3. In what departments of the company did Mr. Nelson Davison work. 4. How were these departments shielded from airborne carcinogens. 5. What are the implications of this disqualification, touching on all employees, such as progress chasers, who move about industrial operations, and who sometimes work in the office and sometimes are in the plant. 6. How well informed is the Board on the incidence of new research in regard to possible employment hazards in industrial production. What liaison exists with the Department of Health in this regard. 7. To what learned journals did the Board subscribe in the last complete year for which records are available. Please tabulate.
57. *Mr. Haggerty*—Enquiry of the Ministry—1. With respect to workers being exposed to new materials that are proving to be carcinogens, what continuing steps is the Minister of Health taking to evaluate new materials in this regard, and to re-evaluate older, more traditional materials in the light of new knowledge as to their carcinogenic and other hazardous properties. 2. What continuing liaison exists between the Research Laboratory of the Department of Health and the Workmen's Compensation Board in this regard. How are the Members of the Workmen's Compensation Board kept abreast of new hazards that might be expected to confront them in compensation cases. Is there a bulletin or journal advising them of new developments in these areas. 3. Will the Minister comment in particular on a letter dated April 3, 1969, addressed to the Medical Officer, Claims Department, Workmen's Compensation Board, 90 Harbour Street, Toronto, Ontario, with copy to Dr. Mastro-matteo in the Department of Health; relating to the case of Mr. Nelson Davison, age 56, of Rural Route No. 1, Port Colborne, Ontario; Workmen's Compensation Claim Number S 7805085; Diagnosis Carcinoma of the Left Middle Turbinate; letter signed by Dr. R. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area,

as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

58. *Mr. Peacock*—Enquiry of the Ministry—1. Is the inclusion of a day care centre in the builder proposals for the first phase of the Chapel Glen Village condominium development a condition of acceptance of a proposal by OHC. If not, why not. 2. What portion of the \$25,000,000 cost of construction of the first phase will be provided out of the 1969-70 advance to OHC. 3. What amount has been contributed by OHC to the recreational centre, and what is the total amount to be contributed. 4. Will the land on which the units are sited be included in the description of the common elements.

57. *Mr. Haggerty*—Enquiry of the Ministry—1. With respect to workers being exposed to new materials that are proving to be carcinogens, what continuing steps is the Minister of Health taking to evaluate new materials in this regard, and to re-evaluate older, more traditional materials in the light of new knowledge as to their carcinogenic and other hazardous properties. 2. What continuing liaison exists between the Research Laboratory of the Department of Health and the Workmen's Compensation Board in this regard. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area,

as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

Will the land on which the units are sited be included in the description of the common elements.
59. *Mr. Peacock*—Enquiry of the Ministry—1. What is the cost of production of the multiple slide presentation tentatively entitled *Ontario: The Good Life*. 2. What is the cost of the projection, audio and associated equipment used in its showing. 3. What is the name of the producer. 4. What use will be made of the presentation, and by which department.
60. *Mr. Peacock*—Enquiry of the Ministry—1. Within the past three years, has the Department of Highways retained Canadian Research Services Ltd. 2. If so, what projects have been undertaken for the department in this period. 3. What was the cost of each project.

57. *Mr. Haggerty*—Enquiry of the Ministry—1. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area,

as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

What amount has been contributed by OHC to the recreational centre, and what is the total amount to be contributed. 4. Will the land on which the units are sited be included in the description of the common elements.
59. *Mr. Peacock*—Enquiry of the Ministry—1. What is the cost of production of the multiple slide presentation tentatively entitled *Ontario: The Good Life*. 2. What is the cost of the projection, audio and associated equipment used in its showing. 3. What is the name of the producer. 4. What use will be made of the presentation, and by which department.
60. *Mr. Peacock*—Enquiry of the Ministry—1. Within the past three years, has the Department of Highways retained Canadian Research Services Ltd. 2. If so, what projects have been undertaken for the department in this period. 3. What was the cost of each project.

57. *Mr. Haggerty*—Enquiry of the Ministry—1. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area,

as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

What amount has been contributed by OHC to the recreational centre, and what is the total amount to be contributed. 4. Will the land on which the units are sited be included in the description of the common elements.
59. *Mr. Peacock*—Enquiry of the Ministry—1. What is the cost of production of the multiple slide presentation tentatively entitled *Ontario: The Good Life*. 2. What is the cost of the projection, audio and associated equipment used in its showing. 3. What is the name of the producer. 4. What use will be made of the presentation, and by which department.
60. *Mr. Peacock*—Enquiry of the Ministry—1. Within the past three years, has the Department of Highways retained Canadian Research Services Ltd. 2. If so, what projects have been undertaken for the department in this period. 3. What was the cost of each project.

## PRIVATE MEMBERS' MOTIONS

6. *Mr. Braithwaite*—Resolution—That this House recognize the reality of noise pollution as a factor in the daily lives and welfare of the people of Ontario.
8. *Mr. Shulman*—Resolution—That, in the opinion of this House, this Government should consider establishing a fund out of which payments may be made to compensate victims of crimes of violence, or their dependants, to be administered by a Board constituted to hear applications and make awards for compensation.

On what grounds was claim No. S 7805085, Mr. Nelson Davison, aged 56, of R.R. How well informed is the Board on the incidence of new research in regard to possible employment hazards in industrial production. What liaison exists with the Department of Health in this regard. 7. To what learned journals did the Board subscribe in the last complete year for which records are available. Please tabulate.
57. *Mr. Haggerty*—Enquiry of the Ministry—1. With respect to workers being exposed to new materials that are proving to be carcinogens, what continuing steps is the Minister of Health taking to evaluate new materials in this regard, and to re-evaluate older, more traditional materials in the light of new knowledge as to their carcinogenic and other hazardous properties. 2. What continuing liaison exists between the Research Laboratory of the Department of Health and the Workmen's Compensation Board in this regard. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area,

as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

What amount has been contributed by OHC to the recreational centre, and what is the total amount to be contributed. 4. Will the land on which the units are sited be included in the description of the common elements.
59. *Mr. Peacock*—Enquiry of the Ministry—1. What is the cost of production of the multiple slide presentation tentatively entitled *Ontario: The Good Life*. 2. What is the cost of the projection, audio and associated equipment used in its showing. 3. What is the name of the producer. 4. What use will be made of the presentation, and by which department.
60. *Mr. Peacock*—Enquiry of the Ministry—1. Within the past three years, has the Department of Highways retained Canadian Research Services Ltd. 2. If so, what projects have been undertaken for the department in this period. 3. What was the cost of each project.

(i) Have discussions taken place between the Department of Education and the O.N.T.C. regarding the possible use of its microwave link to carry television to Moosonee, and if so, with what result.
55. *Mr. Peacock*—Enquiry of the Ministry—1. How many units of family and senior citizens housing has Ontario Housing Corporation proposed to include in the plans for development of the Malvern Project, now before the Scarborough planning board, and when will the first of these be ready for occupancy. 2. What population density (persons per residential acre) is envisaged in the plans before the Scarborough planning board. 3. How

does this density compare with the density recommended by the Metro planning board for the Malvern Project. 4. What are the specific services required for the development of the Malvern Project—sewers, schools, etc.—to which the Ontario Government will contribute, what is the total cost of each service and what is the proportion to be assumed by the province.

56. *Mr. Haggerty*—Enquiry of the Ministry—1. Is Carcinoma of the Left Middle Turbinate classified as an industrial disease. 2. On what grounds was claim No. S 7805085, Mr. Nelson Davison, aged 56, of R.R. No. 1, Port Colborne, Ontario, an employee of the International Nickel Company, Port Colborne, disallowed by the Workmen's Compensation Board. 3. In what departments of the company did Mr. Nelson Davison work. 4. How were these departments shielded from airborne carcinogens. 5. What are the implications of this disqualification, touching on all employees, such as progress chasers, who move about industrial operations, and who sometimes work in the office and sometimes are in the plant. 6. How well informed is the Board on the incidence of new research in regard to possible employment hazards in industrial production. What liaison exists with the Department of Health in this regard. 7. To what learned journals did the Board subscribe in the last complete year for which records are available. Please tabulate.
57. *Mr. Haggerty*—Enquiry of the Ministry—1. With respect to workers being exposed to new materials that are proving to be carcinogens, what continuing steps is the Minister of Health taking to evaluate new materials in this regard, and to re-evaluate older, more traditional materials in the light of new knowledge as to their carcinogenic and other hazardous properties. 2. What continuing liaison exists between the Research Laboratory of the Department of Health and the Workmen's Compensation Board in this regard. How are the Members of the Workmen's Compensation Board kept abreast of new hazards that might be expected to confront them in compensation cases. Is there a bulletin or journal advising them of new developments in these areas. 3. Will the Minister comment in particular on a letter dated April 3, 1969, addressed to the Medical Officer, Claims Department, Workmen's Compensation Board, 90 Harbour Street, Toronto, Ontario, with copy to Dr. Mastro-matteo in the Department of Health; relating to the case of Mr. Nelson Davison, age 56, of Rural Route No. 1, Port Colborne, Ontario; Workmen's Compensation Claim Number S 7805085; Diagnosis Carcinoma of the Left Middle Turbinate; letter signed by Dr. R. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area,

as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

58. *Mr. Peacock*—Enquiry of the Ministry—1. Is the inclusion of a day care centre in the builder proposals for the first phase of the Chapel Glen Village condominium development a condition of acceptance of a proposal by OHC. If not, why not. 2. What portion of the \$25,000,000 cost of construction of the first phase will be provided out of the 1969-70 advance to OHC. 3. What amount has been contributed by OHC to the recreational centre, and what is the total amount to be contributed. 4. Will the land on which the units are sited be included in the description of the common elements.
59. *Mr. Peacock*—Enquiry of the Ministry—1. What is the cost of production of the multiple slide presentation tentatively entitled *Ontario: The Good Life*. 2. What is the cost of the projection, audio and associated equipment used in its showing. 3. What is the name of the producer. 4. What use will be made of the presentation, and by which department.
60. *Mr. Peacock*—Enquiry of the Ministry—1. Within the past three years, has the Department of Highways retained Canadian Research Services Ltd. 2. If so, what projects have been undertaken for the department in this period. 3. What was the cost of each project.
61. *Mr. Ben*—Enquiry of the Ministry—How many civil servants have had their job classification upgraded retroactively, but are not receiving pay increases in line with this upgrading retroactively also.
62. *Mr. Ben*—Enquiry of the Ministry—1. Were any employees of the Department of Tourism and Information upgraded in their job classifications retroactively. 2. If the answer to the above is yes, how many of them were denied the pay increases to which they were entitled from the period to which the upgrading went back.
63. *Mr. Martel*—Enquiry of the Ministry—1. How many people employed in Metro Toronto high schools as teachers do not hold teacher certificates. 2. How many are teaching on a letter of permission. 3. How many are teaching on a letter of standing.
64. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—(a) Must parents or guardians of students suspended from school by a principal be informed *in writing* of their right to appeal the suspensions to the relevant Board of Education as provided for under The Schools Administration Act (Section 22 (2) (k)). (b) Within what period of time after receiving such notification of suspension, must the parents or guardians register their appeal to the School Board. (c) Within what period of time after receiving such a request for an appeal, must the School Board hear the appeal. (d) Are parents making such an appeal allowed to retain legal council. (e) If so, does the lawyer representing the students have full access to the relevant school files including "students' record".

65. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Since the Minister may request from the Principal of Forest Hill Collegiate Institute in the City of Toronto “information . . . respecting the discipline of the school . . . and any other matter affecting the interests of the school” under Section 22 (2) (g), of The Schools Administration Act: (a) does the publication of a mimeographed newspaper by a group of high school students constitute grounds for suspension of some of those students by the school principal under Section 22 (2) (k); and (b) does the free association of a number of individual students into a group constitute grounds for suspension of some of those students by the school principal under Section 22 (2) (k).

8. *Mr. Shulman*—Resolution—That, in the opinion of this House, this Government should consider establishing a fund out of which payments may be made to compensate victims of crimes of violence, or their dependants, to be administered by a Board constituted to hear applications and make awards for compensation.

45. *Mrs. Renwick* (Scarborough Centre)—Enquiry of the Ministry—Where, in Ontario Hospitals, should the emergency key to the drugs in the dispensary be kept and with whom.
47. *Mr. Haggerty*—Enquiry of the Ministry—1. 56. *Mr. Haggerty*—Enquiry of the Ministry—1. Is Carcinoma of the Left Middle Turbinate classified as an industrial disease. 2. On what grounds was claim No. S 7805085, Mr. Nelson Davison, aged 56, of R.R. No. 1, Port Colborne, Ontario, an employee of the International Nickel Company, Port Colborne, disallowed by the Workmen's Compensation Board. 3. In what departments of the company did Mr. Nelson Davison work. 4. How were these departments shielded from airborne carcinogens. 5. To what learned journals did the Board subscribe in the last complete year for which records are available. Please tabulate.
57. *Mr. Haggerty*—Enquiry of the Ministry—1. With respect to workers being exposed to new materials that are proving to be carcinogens, what continuing steps is the Minister of Health taking to evaluate new materials in this regard, and to re-evaluate older, more traditional materials in the light of new knowledge as to their carcinogenic and other hazardous properties. 2. What continuing liaison exists between the Research Laboratory of the Department of Health and the Workmen's Compensation Board in this regard. How are the Members of the Workmen's Compensation Board kept abreast of new hazards that might be expected to confront them in compensation cases. Is there a bulletin or journal advising them of new developments in these areas. 3. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area,

as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

Will the land on which the units are sited be included in the description of the common elements.
59. *Mr. Peacock*—Enquiry of the Ministry—1. What is the cost of production of the multiple slide presentation tentatively entitled *Ontario: The Good Life*. 2. What is the cost of the projection, audio and associated equipment used in its showing. 3. What is the name of the producer. 4. What use will be made of the presentation, and by which department.
60. *Mr. Peacock*—Enquiry of the Ministry—1. Within the past three years, has the Department of Highways retained Canadian Research Services Ltd. 2. If so, what projects have been undertaken for the department in this period. 3. What was the cost of each project.

8. *Mr. Shulman*—Resolution—That, in the opinion of this House, this Government should consider establishing a fund out of which payments may be made to compensate victims of crimes of violence, or their dependants, to be administered by a Board constituted to hear applications and make awards for compensation.

What continuing liaison exists between the Research Laboratory of the Department of Health and the Workmen's Compensation Board in this regard. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."
58. *Mr. Peacock*—Enquiry of the Ministry—1. 59. *Mr. Peacock*—Enquiry of the Ministry—1. What is the cost of production of the multiple slide presentation tentatively entitled *Ontario: The Good Life*. 2. What is the cost of the projection, audio and associated equipment used in its showing. 3. What is the name of the producer. 4. What use will be made of the presentation, and by which department.
61. *Mr. Ben*—Enquiry of the Ministry—How many civil servants have had their job classification upgraded retroactively, but are not receiving pay increases in line with this upgrading retroactively also.
62. *Mr. Ben*—Enquiry of the Ministry—1. Were any employees of the Department of Tourism and Information upgraded in their job classifications retroactively. 2. (b) Within what period of time after receiving such notification of suspension, must the parents or guardians register their appeal to the School Board. (c) Within what period of time after receiving such a request for an appeal, must the School Board hear the appeal. (d) Are parents making such an appeal allowed to retain legal council. (e) If so, does the lawyer representing the students have full access to the relevant school files including “students’ record”.
65. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Since the Minister may request from the Principal of Forest Hill Collegiate Institute in the City of Toronto “information . . . respecting the discipline of the school . . . and any other matter affecting the interests of the school” under Section 22 (2) (g), of The Schools Administration Act: (a) does the publication of a mimeographed newspaper by a group of high school students constitute grounds for suspension of some of those students by the school principal under Section 22 (2) (k); and (b) does the free association of a number of individual students into a group constitute grounds for suspension of some of those students by the school principal under Section 22 (2) (k).

G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

Has the Addiction Research Foundation yet advised the Minister as to its opinion of the addictive properties of tobacco and its injurious effect on the public health which in the words of the Minister "is a concern with all factors which tend to debilitate man." 3. If not, is the Minister prepared to mandate the Alcoholism Research Foundation to direct, co-ordinate, and initiate work on the addictive properties of tobacco as a major public health problem.

8. *Mr. Shulman*—Resolution—That, in the opinion of this House, this Government should consider establishing a fund out of which payments may be made to compensate victims of crimes of violence, or their dependants, to be administered by a Board constituted to hear applications and make awards for compensation.

18. *Mr. Peacock*—Resolution—That, in the opinion of this House, the Ontario Housing Corporation, in respect to the displacement of tenants from lands acquired directly or at arm's length by the corporation, should be subject to the provisions of The Expropriations Act, 1968-69, (Bill 5), in the same manner as the Crown.

G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

Was any part of this cost recovered from United States sources. (h) Was the Ontario Northland Transportation Commission involved in any arrangement for the use of its microwave facilities or wire circuits for the purposes of such instruction, and, if so, will the Minister table a copy of this agreement or contract. 55. *Mr. Peacock*—Enquiry of the Ministry—1. How many units of family and senior citizens housing has Ontario Housing Corporation proposed to include in the plans for development of the Malvern Project, now before the Scarborough planning board, and when will the first of these be ready for occupancy. 2. What population density (persons per residential acre) is envisaged in the plans before the Scarborough planning board. 3. How does this density compare with the density recommended by the Metro planning board for the Malvern Project. 4. What are the specific services required for the development of the Malvern Project—sewers, schools, etc.—to which the Ontario Government will contribute, what is the total cost of each service and what is the proportion to be assumed by the province.
56. *Mr. Haggerty*—Enquiry of the Ministry—1. Is Carcinoma of the Left Middle Turbinate classified as an industrial disease. 2. On what grounds was claim No. S 7805085, Mr. Nelson Davison, aged 56, of R.R. No. 1, Port Colborne, Ontario, an employee of the International Nickel Company, Port Colborne, disallowed by the Workmen's Compensation Board. 3. In what departments of the company did Mr. Nelson Davison work. 4. How were these departments shielded from airborne carcinogens. 5. What are the implications of this disqualification, touching on all

employees, such as progress chasers, who move about industrial operations, and who sometimes work in the office and sometimes are in the plant. 6. How well informed is the Board on the incidence of new research in regard to possible employment hazards in industrial production. What liaison exists with the Department of Health in this regard. 7. To what learned journals did the Board subscribe in the last complete year for which records are available. Please tabulate.

57. *Mr. Haggerty*—Enquiry of the Ministry—1. With respect to workers being exposed to new materials that are proving to be carcinogens, what continuing steps is the Minister of Health taking to evaluate new materials in this regard, and to re-evaluate older, more traditional materials in the light of new knowledge as to their carcinogenic and other hazardous properties. 2. What continuing liaison exists between the Research Laboratory of the Department of Health and the Workmen's Compensation Board in this regard. How are the Members of the Workmen's Compensation Board kept abreast of new hazards that might be expected to confront them in compensation cases. Is there a bulletin or journal advising them of new developments in these areas. 3. Will the Minister comment in particular on a letter dated April 3, 1969, addressed to the Medical Officer, Claims Department, Workmen's Compensation Board, 90 Harbour Street, Toronto, Ontario, with copy to Dr. Mastro-matteo in the Department of Health; relating to the case of Mr. Nelson Davison, age 56, of Rural Route No. 1, Port Colborne, Ontario; Workmen's Compensation Claim Number S 7805085; Diagnosis Carcinoma of the Left Middle Turbinate; letter signed by Dr. R. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."
58. *Mr. Peacock*—Enquiry of the Ministry—1. Is the inclusion of a day care centre in the builder proposals for the first phase of the Chapel Glen Village condominium development a condition of acceptance of a proposal by OHC. If not, why not. 2. What portion of the \$25,000,000 cost of construction of the first phase will be provided out of the 1969-70 advance to OHC. 3. Will the land on which the units are sited be included in the description of the common elements.

59. *Mr. Peacock*—Enquiry of the Ministry—1. What is the cost of production of the multiple slide presentation tentatively entitled *Ontario: The Good Life*. 2. What is the cost of the projection, audio and associated equipment used in its showing. 3. What is the name of the producer. 4. What use will be made of the presentation, and by which department.
61. *Mr. Ben*—Enquiry of the Ministry—How many civil servants have had their job classification upgraded retroactively, but are not receiving pay increases in line with this upgrading retroactively also.
62. *Mr. Ben*—Enquiry of the Ministry—1. Were any employees of the Department of Tourism and Information upgraded in their job classifications retroactively. 2. (b) Within what period of time after receiving such notification of suspension, must the parents or guardians register their appeal to the School Board. (c) Within what period of time after receiving such a request for an appeal, must the School Board hear the appeal. (d) Are parents making such an appeal allowed to retain legal counsel. (e) If so, does the lawyer representing the students have full access to the relevant school files including “students’ record”.
65. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Since the Minister may request from the Principal of Forest Hill Collegiate Institute in the City of Toronto “information . . . respecting the discipline of the school . . . and any other matter affecting the interests of the school” under Section 22 (2) (g), of The Schools Administration Act: (a) does the publication of a mimeographed newspaper by a group of high school students constitute grounds for suspension of some of those students by the school principal under Section 22 (2) (k); and (b) does the free association of a number of individual students into a group constitute grounds for suspension of some of those students by the school principal under Section 22 (2) (k).
66. *Mr. MacDonald*—Enquiry of the Ministry—What percentage of educational costs in 1968 were paid by provincial grants in each of the 13 municipalities with populations over 60,000. Has the Addiction Research Foundation yet advised the Minister as to its opinion of the addictive properties of tobacco and its injurious effect on the public health which in the words of the Minister "is a concern with all factors which tend to debilitate man." 3. If not, is the Minister prepared to mandate the Alcoholism Research Foundation to direct, co-ordinate, and initiate work on the addictive properties of tobacco as a major public health problem.
71. *Mr. Peacock*—Enquiry of the Ministry—1. As of April 30, 1969 how many persons had applied for registration as a nursing assistant to the Council of the College of Nurses under Ontario Regulation 379/68, The Nurses Act 961/62. 2. How many persons had been registered as nursing assistants. 3. # NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

5. *Mr. Sopha*—Resolution—That, in the opinion of this Legislature, it ought to be an offence for any person to eavesdrop on the conversation or actions of other parties by any means whatsoever, except under the strictest controls as prescribed by law.
8. *Mr. Shulman*—Resolution—That, in the opinion of this House, this Government should consider establishing a fund out of which payments may be made to compensate victims of crimes of violence, or their dependants, to be administered by a Board constituted to hear applications and make awards for compensation.
13. *Mr. Jessiman*—Resolution—That financial assistance should be provided to needy students in our primary and secondary schools, as well as in university to ensure that no one is forced to drop out of the school system as a result of economic pressure.
18. *Mr. Peacock*—Resolution—That, in the opinion of this House, the Ontario Housing Corporation, in respect to the displacement of tenants from lands acquired directly or at arm's length by the corporation, should be subject to the provisions of The Expropriations Act, 1968-69, (Bill 5), in the same manner as the Crown.
19. *Mr. Lawlor*—Resolution—That consideration be given by this House to the ideas, and their justification or lack of it, set out in Volume I of the Royal Commission Inquiry into Civil Rights.

What continuing liaison exists between the Research Laboratory of the Department of Health and the Workmen's Compensation Board in this regard. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

## PRIVATE MEMBERS' MOTIONS

5. *Mr. Sopha*—Resolution—That, in the opinion of this Legislature, it ought to be an offence for any person to eavesdrop on the conversation or actions of other parties by any means whatsoever, except under the strictest controls as prescribed by law.
8. *Mr. Shulman*—Resolution—That, in the opinion of this House, this Government should consider establishing a fund out of which payments may be made to compensate victims of crimes of violence, or their dependants, to be administered by a Board constituted to hear applications and make awards for compensation.

18. *Mr. Peacock*—Resolution—That, in the opinion of this House, the Ontario Housing Corporation, in respect to the displacement of tenants from lands acquired directly or at arm's length by the corporation, should be subject to the provisions of The Expropriations Act, 1968-69, (Bill 5), in the same manner as the Crown.

What continuing liaison exists between the Research Laboratory of the Department of Health and the Workmen's Compensation Board in this regard. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

65. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Since the Minister may request from the Principal of Forest Hill Collegiate Institute in the City of Toronto “information . . . respecting the discipline of the school . . . and any other matter affecting the interests of the school” under Section 22 (2) (g), of The Schools Administration Act: (a) does the publication of a mimeographed newspaper by a group of high school students constitute grounds for suspension of some of those students by the school principal under Section 22 (2) (k); and (b) does the free association of a number of individual students into a group constitute grounds for suspension of some of those students by the school principal under Section 22 (2) (k).

Has the Addiction Research Foundation yet advised the Minister as to its opinion of the addictive properties of tobacco and its injurious effect on the public health which in the words of the Minister "is a concern with all factors which tend to debilitate man." 3. If not, is the Minister prepared to mandate the Alcoholism Research Foundation to direct, co-ordinate, and initiate work on the addictive properties of tobacco as a major public health problem.
71. *Mr. Peacock*—Enquiry of the Ministry—1. As of April 30, 1969 how many persons had applied for registration as a nursing assistant to the Council of the College of Nurses under Ontario Regulation 379/68, The Nurses Act 961/62. 2. How many persons had been registered as nursing assistants. 3. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

## PRIVATE MEMBERS' MOTIONS

5. *Mr. Sopha*—Resolution—That, in the opinion of this Legislature, it ought to be an offence for any person to eavesdrop on the conversation or actions of other parties by any means whatsoever, except under the strictest controls as prescribed by law.
13. *Mr. Jessiman*—Resolution—That financial assistance should be provided to needy students in our primary and secondary schools, as well as in university to ensure that no one is forced to drop out of the school system as a result of economic pressure.
18. *Mr. Peacock*—Resolution—That, in the opinion of this House, the Ontario Housing Corporation, in respect to the displacement of tenants from lands acquired directly or at arm's length by the corporation, should be subject to the provisions of The Expropriations Act, 1968-69, (Bill 5), in the same manner as the Crown.
19. *Mr. Lawlor*—Resolution—That consideration be given by this House to the ideas, and their justification or lack of it, set out in Volume I of the Royal Commission Inquiry into Civil Rights.
27. *Mr. Brown*—Resolution—That, in the opinion of this House, persons on Old Age Security and/or welfare allowances and/or Unemployment Insurance should be carried free of charge on the GO train service.
28. *Mr. Newman* (Ontario South)—Resolution—That present highway traffic regulations which require a motorist to stop when approaching a school bus from either direction on any Ontario roadway with a speed limit in excess of 35 miles per hour is insufficient for the safety of elementary and secondary school children boarding and leaving school buses, and (a) that the regulation be amended to require motorists to come to a full stop when approaching a stopped school bus with flashing red lights regardless of the speed limit within the area, except on 4-lane controlled access roads, and remain stopped until the flashing red lights are disengaged, and (b) that the colour for school buses be standardized, preferably a Department of Highways yellow.
29. *Mr. Peacock*—Motion for return—For agreement between Ontario Housing Corporation and Montreal Trust Company effective May 1, 1969 respecting the Flemington Park and Tandridge public housing projects, and any associated papers showing the comparative costs of administrative, inside and outside maintenance and any other management services, apart from amortization costs, to be undertaken by Montreal Trust Company as against the cost of these services now provided by O.H.C. showing (a) the total cost, and (b) labour cost per unit or for each project.

31. *Mr. Reid* (Scarborough East)—Resolution—That this House favours the abolition of the borough Boards of Control of Metropolitan Toronto and the election of the Chairman of the Metropolitan Board and deplors the failure of the Minister of Municipal Affairs to bring about such democratic reform of the government in Metropolitan Toronto.
32. *Mr. Shulman*—Resolution—That the report of the Ontario Securities Commission on Canadian Central Holdings be made public and that appropriate charges be laid as recommended in the report.
33. *Mr. Nixon*—Motion—Because of the resignation of the entire staff of the Indian Development Branch and the complete lack of policy and program put forward by the government in relation to Indian matters, this House has no confidence in the government, and in particular censures the Minister of Social and Family Services and believes his service in the government is no longer in the best interests of Ontario.
34. *Mr. MacDonald*—Proposed amendment to Supply Motion—That this House censures the Government for its abject betrayal of the rights and needs of the Indian community in this province as evidenced by:  
1. The mass resignation of the Indian Community Development Branch of the Department of Social and Family Services. 2. The resignation of Chief Wilmer Nadjiwon from the Indian Advisory Council. 3. The fact that the Interdepartmental Committee on Indian Affairs has not met for six months. 4. The fact that the Federal-Provincial Committee on Indian Affairs has not met for twelve months. 5. The fact that the Minister of Social and Family Services compounded monumental neglect by deceiving this House in not revealing the resignation crisis which was imminent or the memorandum of despair which was submitted by his staff, and therefore that the Government does not enjoy the confidence of this House.

With respect to workers being exposed to new materials that are proving to be carcinogens, what continuing steps is the Minister of Health taking to evaluate new materials in this regard, and to re-evaluate older, more traditional materials in the light of new knowledge as to their carcinogenic and other hazardous properties. 2. What continuing liaison exists between the Research Laboratory of the Department of Health and the Workmen's Compensation Board in this regard. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other

cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

Has the Addiction Research Foundation yet advised the Minister as to its opinion of the addictive properties of tobacco and its injurious effect on the public health which in the words of the Minister “is a concern with all factors which tend to debilitate man.” 3. If not, is the Minister prepared to mandate the Alcoholism Research Foundation to direct, co-ordinate, and initiate work on the addictive properties of tobacco as a major public health problem.
71. *Mr. Peacock*—Enquiry of the Ministry—1. As of April 30, 1969 how many persons had applied for registration as a nursing assistant to the Council of the College of Nurses under Ontario Regulation 379/68; The Nurses Act 961/62. 2. # NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

5. *Mr. Sopha*—Resolution—That, in the opinion of this Legislature, it ought to be an offence for any person to eavesdrop on the conversation or actions of other parties by any means whatsoever, except under the strictest controls as prescribed by law.
13. *Mr. Jessiman*—Resolution—That financial assistance should be provided to needy students in our primary and secondary schools, as well as in university to ensure that no one is forced to drop out of the school system as a result of economic pressure.
18. *Mr. Peacock*—Resolution—That, in the opinion of this House, the Ontario Housing Corporation, in respect to the displacement of tenants from lands acquired directly or at arm's length by the corporation, should be subject to the provisions of The Expropriations Act, 1968-69, (Bill 5), in the same manner as the Crown.
19. *Mr. Lawlor*—Resolution—That consideration be given by this House to the ideas, and their justification or lack of it, set out in Volume I of the Royal Commission Inquiry into Civil Rights.
27. *Mr. Brown*—Resolution—That, in the opinion of this House, persons on Old Age Security and/or welfare allowances and/or Unemployment Insurance should be carried free of charge on the GO train service.
28. *Mr. Newman* (Ontario South)—Resolution—That present highway traffic regulations which require a motorist to stop when approaching a school bus from either direction on any Ontario roadway with a speed limit in excess of 35 miles per hour is insufficient for the safety of elementary and secondary school children boarding and leaving school buses, and (a) that the regulation be amended to require motorists to come to a full stop when approaching a stopped school bus with flashing red lights regardless of the speed limit within the area, except on 4-lane controlled access roads, and remain stopped until the flashing red lights are disengaged, and (b) that the colour for school buses be standardized, preferably a Department of Highways yellow.
29. *Mr. Peacock*—Motion for return—For agreement between Ontario Housing Corporation and Montreal Trust Company effective May 1, 1969 respecting the Flemingdon Park and Tandridge public housing projects, and any associated papers showing the comparative costs of administrative, inside and outside maintenance and any other management services, apart from amortization costs, to be undertaken by Montreal Trust Company as against the cost of these services now provided by O.H.C. showing (a) the total cost, and (b) labour cost per unit or for each project.

31. *Mr. Reid* (Scarborough East)—Resolution—That this House favours the abolition of the borough Boards of Control of Metropolitan Toronto and the election of the Chairman of the Metropolitan Board and deplores the failure of the Minister of Municipal Affairs to bring about such democratic reform of the government in Metropolitan Toronto.
32. *Mr. Shulman*—Resolution—That the report of the Ontario Securities Commission on Canadian Central Holdings be made public and that appropriate charges be laid as recommended in the report.
33. *Mr. Nixon*—Motion—Because of the resignation of the entire staff of the Indian Development Branch and the complete lack of policy and program put forward by the government in relation to Indian matters, this House has no confidence in the government, and in particular censures the Minister of Social and Family Services and believes his service in the government is no longer in the best interests of Ontario.
34. *Mr. MacDonald*—Proposed amendment to Supply Motion—That this House censures the Government for its abject betrayal of the rights and needs of the Indian community in this province as evidenced by:  
1. The mass resignation of the Indian Community Development Branch of the Department of Social and Family Services. 2. The resignation of Chief Wilmer Nadjiwon from the Indian Advisory Council. 3. The fact that the Interdepartmental Committee on Indian Affairs has not met for six months. 4. The fact that the Federal-Provincial Committee on Indian Affairs has not met for twelve months. 5. The fact that the Minister of Social and Family Services compounded monumental neglect by deceiving this House in not revealing the resignation crisis which was imminent or the memorandum of despair which was submitted by his staff, and therefore that the Government does not enjoy the confidence of this House.

does this density compare with the density recommended by the Metro planning board for the Malvern Project. 4. 56. *Mr. Haggerty*—Enquiry of the Ministry—1. Is Carcinoma of the Left Middle Turbinate classified as an industrial disease. 2. On what grounds was claim No. S 7805085, Mr. Nelson Davison, aged 56, of R.R. No. 1, Port Colborne, Ontario, an employee of the International Nickel Company, Port Colborne, disallowed by the Workmen's Compensation Board. 3. In what departments of the company did Mr. Nelson Davison work. 4. How were these departments shielded from airborne carcinogens. 5. What are the implications of this disqualification, touching on all employees, such as progress chasers, who move about industrial operations, and who sometimes work in the office and sometimes are in the plant. 6. How well informed is the Board on the incidence of new research in regard to possible employment hazards in industrial production. What liaison exists with the Department of Health in this regard. 7. To what learned journals did the Board subscribe in the last complete year for which records are available. Please tabulate.
57. *Mr. Haggerty*—Enquiry of the Ministry—1. With respect to workers being exposed to new materials that are proving to be carcinogens, what continuing steps is the Minister of Health taking to evaluate new materials in this regard, and to re-evaluate older, more traditional materials in the light of new knowledge as to their carcinogenic and other hazardous properties. 2. What continuing liaison exists between the Research Laboratory of the Department of Health and the Workmen's Compensation Board in this regard. How are the Members of the Workmen's Compensation Board kept abreast of new hazards that might be expected to confront them in compensation cases. Is there a bulletin or journal advising them of new developments in these areas. 3. Will the Minister comment in particular on a letter dated April 3, 1969, addressed to the Medical Officer, Claims Department, Workmen's Compensation Board, 90 Harbour Street, Toronto, Ontario, with copy to Dr. Mastro-matteo in the Department of Health; relating to the case of Mr. Nelson Davison, age 56, of Rural Route No. 1, Port Colborne, Ontario; Workmen's Compensation Claim Number S 7805085; Diagnosis Carcinoma of the Left Middle Turbinate; letter signed by Dr. R. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other

cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

## PRIVATE MEMBERS' MOTIONS

5. *Mr. Sopha*—Resolution—That, in the opinion of this Legislature, it ought to be an offence for any person to eavesdrop on the conversation or actions of other parties by any means whatsoever, except under the strictest controls as prescribed by law.
  
13. *Mr. Jessiman*—Resolution—That financial assistance should be provided to needy students in our primary and secondary schools, as well as in university to ensure that no one is forced to drop out of the school system as a result of economic pressure.
  
18. *Mr. Peacock*—Resolution—That, in the opinion of this House, the Ontario Housing Corporation, in respect to the displacement of tenants from lands acquired directly or at arm's length by the corporation, should be subject to the provisions of The Expropriations Act, 1968-69, (Bill 5), in the same manner as the Crown.
  
19. *Mr. Lawlor*—Resolution—That consideration be given by this House to the ideas, and their justification or lack of it, set out in Volume I of the Royal Commission Inquiry into Civil Rights.
  
27. *Mr. Brown*—Resolution—That, in the opinion of this House, persons on Old Age Security and/or welfare allowances and/or Unemployment Insurance should be carried free of charge on the GO train service.
  
28. *Mr. Newman* (Ontario South)—Resolution—That present highway traffic regulations which require a motorist to stop when approaching a school bus from either direction on any Ontario roadway with a speed limit in excess of 35 miles per hour is insufficient for the safety of elementary and secondary school children boarding and leaving school buses, and (a) that the regulation be amended to require motorists to come to a full stop when approaching a stopped school bus with flashing red lights regardless of the speed limit within the area, except on 4-lane controlled access roads, and remain stopped until the flashing red lights are disengaged, and (b) that the colour for school buses be standardized, preferably a Department of Highways yellow.

31. *Mr. Reid* (Scarborough East)—Resolution—That this House favours the abolition of the borough Boards of Control of Metropolitan Toronto and the election of the Chairman of the Metropolitan Board and deplors the failure of the Minister of Municipal Affairs to bring about such democratic reform of the government in Metropolitan Toronto.
32. *Mr. Shulman*—Resolution—That the report of the Ontario Securities Commission on Canadian Central Holdings be made public and that appropriate charges be laid as recommended in the report.
33. *Mr. Nixon*—Motion—Because of the resignation of the entire staff of the Indian Development Branch and the complete lack of policy and program put forward by the government in relation to Indian matters, this House has no confidence in the government, and in particular censures the Minister of Social and Family Services and believes his service in the government is no longer in the best interests of Ontario.

G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

## PRIVATE MEMBERS' MOTIONS

5. *Mr. Sopha*—Resolution—That, in the opinion of this Legislature, it ought to be an offence for any person to eavesdrop on the conversation or actions of other parties by any means whatsoever, except under the strictest controls as prescribed by law.
  
13. *Mr. Jessiman*—Resolution—That financial assistance should be provided to needy students in our primary and secondary schools, as well as in university to ensure that no one is forced to drop out of the school system as a result of economic pressure.
  
18. *Mr. Peacock*—Resolution—That, in the opinion of this House, the Ontario Housing Corporation, in respect to the displacement of tenants from lands acquired directly or at arm's length by the corporation, should be subject to the provisions of The Expropriations Act, 1968-69, (Bill 5), in the same manner as the Crown.
  
27. *Mr. Brown*—Resolution—That, in the opinion of this House, persons on Old Age Security and/or welfare allowances and/or Unemployment Insurance should be carried free of charge on the GO train service.
  
28. *Mr. Newman* (Ontario South)—Resolution—That present highway traffic regulations which require a motorist to stop when approaching a school bus from either direction on any Ontario roadway with a speed limit in excess of 35 miles per hour is insufficient for the safety of elementary and secondary school children boarding and leaving school buses, and (a) that the regulation be amended to require motorists to come to a full stop when approaching a stopped school bus with flashing red lights regardless of the speed limit within the area, except on 4-lane controlled access roads, and remain stopped until the flashing red lights are disengaged, and (b) that the colour for school buses be standardized, preferably a Department of Highways yellow.
  
29. *Mr. Peacock*—Motion for return—For agreement between Ontario Housing Corporation and Montreal Trust Company effective May 1, 1969 respecting the Flemingdon Park and Tandridge public housing projects, and any associated papers showing the comparative costs of administrative, inside and outside maintenance and any other management services, apart from amortization costs, to be undertaken by Montreal Trust Company as against the cost of these services now provided by O.H.C. showing (a) the total cost, and (b) labour cost per unit or for each project.
  
31. *Mr. Reid* (Scarborough East)—Resolution—That this House favours the abolition of the borough Boards of Control of Metropolitan Toronto and the election of the Chairman of the Metropolitan Board and deplores the failure of the Minister of Municipal Affairs to bring about such democratic reform of the government in Metropolitan Toronto.

32. *Mr. Shulman*—Resolution—That the report of the Ontario Securities Commission on Canadian Central Holdings be made public and that appropriate charges be laid as recommended in the report.
33. *Mr. Nixon*—Motion—Because of the resignation of the entire staff of the Indian Development Branch and the complete lack of policy and program put forward by the government in relation to Indian matters, this House has no confidence in the government, and in particular censures the Minister of Social and Family Services and believes his service in the government is no longer in the best interests of Ontario.

G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

## PRIVATE MEMBERS' MOTIONS

5. *Mr. Sopha*—Resolution—That, in the opinion of this Legislature, it ought to be an offence for any person to eavesdrop on the conversation or actions of other parties by any means whatsoever, except under the strictest controls as prescribed by law.
  
13. *Mr. Jessiman*—Resolution—That financial assistance should be provided to needy students in our primary and secondary schools, as well as in university to ensure that no one is forced to drop out of the school system as a result of economic pressure.
  
18. *Mr. Peacock*—Resolution—That, in the opinion of this House, the Ontario Housing Corporation, in respect to the displacement of tenants from lands acquired directly or at arm's length by the corporation, should be subject to the provisions of The Expropriations Act, 1968-69, (Bill 5), in the same manner as the Crown.
  
27. *Mr. Brown*—Resolution—That, in the opinion of this House, persons on Old Age Security and/or welfare allowances and/or Unemployment Insurance should be carried free of charge on the GO train service.
  
28. *Mr. Newman* (Ontario South)—Resolution—That present highway traffic regulations which require a motorist to stop when approaching a school bus from either direction on any Ontario roadway with a speed limit in excess of 35 miles per hour is insufficient for the safety of elementary and secondary school children boarding and leaving school buses, and (a) that the regulation be amended to require motorists to come to a full stop when approaching a stopped school bus with flashing red lights regardless of the speed limit within the area, except on 4-lane controlled access roads, and remain stopped until the flashing red lights are disengaged, and (b) that the colour for school buses be standardized; preferably a Department of Highways yellow.
  
29. *Mr. Peacock*—Motion for return—For agreement between Ontario Housing Corporation and Montreal Trust Company effective May 1, 1969 respecting the Flemingdon Park and Tandridge public housing projects, and any associated papers showing the comparative costs of administrative, inside and outside maintenance and any other management services, apart from amortization costs, to be undertaken by Montreal Trust Company as against the cost of these services now provided by O.H.C. showing (a) the total cost, and (b) labour cost per unit or for each project.
  
31. *Mr. Reid* (Scarborough East)—Resolution—That this House favours the abolition of the borough Boards of Control of Metropolitan Toronto and the election of the Chairman of the Metropolitan Board and deplores the failure of the Minister of Municipal Affairs to bring about such democratic reform of the government in Metropolitan Toronto.

32. *Mr. Shulman*—Resolution—That the report of the Ontario Securities Commission on Canadian Central Holdings be made public and that appropriate charges be laid as recommended in the report.
33. *Mr. Nixon*—Motion—Because of the resignation of the entire staff of the Indian Development Branch and the complete lack of policy and program put forward by the government in relation to Indian matters, this House has no confidence in the government, and in particular censures the Minister of Social and Family Services and believes his service in the government is no longer in the best interests of Ontario.

55. *Mr. Peacock*—Enquiry of the Ministry—1. 56. *Mr. Haggerty*—Enquiry of the Ministry—1. Is Carcinoma of the Left Middle Turbinate classified as an industrial disease. 2. On what grounds was claim No. S 7805085, Mr. Nelson Davison, aged 56, of R.R. No. 1, Port Colborne, Ontario, an employee of the International Nickel Company, Port Colborne, disallowed by the Workmen's Compensation Board. 3. In what departments of the company did Mr. Nelson Davison work. 4. How were these departments shielded from airborne carcinogens. 5. What are the implications of this disqualification, touching on all employees, such as progress chasers, who move about industrial operations, and who sometimes work in the office and sometimes are in the plant. 6. How well informed is the Board on the incidence of new research in regard to possible employment hazards in industrial production. What liaison exists with the Department of Health in this regard. 7. To what learned journals did the Board subscribe in the last complete year for which records are available. Please tabulate.
57. *Mr. Haggerty*—Enquiry of the Ministry—1. With respect to workers being exposed to new materials that are proving to be carcinogens, what continuing steps is the Minister of Health taking to evaluate new materials in this regard, and to re-evaluate older, more traditional materials in the light of new knowledge as to their carcinogenic and other hazardous properties. 2. What continuing liaison exists between the Research Laboratory of the Department of Health and the Workmen's Compensation Board in this regard. How are the Members of the Workmen's Compensation Board kept abreast of new hazards that might be expected to confront them in compensation cases. Is there a bulletin or journal advising them of new developments in these areas. 3. Will the Minister comment in particular on a letter dated April 3, 1969, addressed to the Medical Officer, Claims Department, Workmen's Compensation Board, 90 Harbour Street, Toronto, Ontario, with copy to Dr. Mastro-matteo in the Department of Health; relating to the case of Mr. Nelson Davison, age 56, of Rural Route No. 1, Port Colborne, Ontario; Workmen's Compensation Claim Number S 7805085; Diagnosis Carcinoma of the Left Middle Turbinate; letter signed by Dr. R. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

28. *Mr. Newman* (Ontario South)—Resolution—That present highway traffic regulations which require a motorist to stop when approaching a school bus from either direction on any Ontario roadway with a speed limit in excess of 35 miles per hour is insufficient for the safety of elementary and secondary school children boarding and leaving school buses, and (a) that the regulation be amended to require motorists to come to a full stop when approaching a stopped school bus with flashing red lights regardless of the speed limit within the area, except on 4-lane controlled access roads, and remain stopped until the flashing red lights are disengaged, and (b) that the colour for school buses be standardized, preferably a Department of Highways yellow.

31. *Mr. Reid* (Scarborough East)—Resolution—That this House favours the abolition of the borough Boards of Control of Metropolitan Toronto and the election of the Chairman of the Metropolitan Board and deplores the failure of the Minister of Municipal Affairs to bring about such democratic reform of the government in Metropolitan Toronto.

32. *Mr. Shulman*—Resolution—That the report of the Ontario Securities Commission on Canadian Central Holdings be made public and that appropriate charges be laid as recommended in the report.
33. *Mr. Nixon*—Motion—Because of the resignation of the entire staff of the Indian Development Branch and the complete lack of policy and program put forward by the government in relation to Indian matters, this House has no confidence in the government, and in particular censures the Minister of Social and Family Services and believes his service in the government is no longer in the best interests of Ontario.

56. *Mr. Haggerty*—Enquiry of the Ministry—1. Is Carcinoma of the Left Middle Turbinate classified as an industrial disease. 2. On what grounds was claim No. S 7805085, Mr. Nelson Davison, aged 56, of R.R. No. 1, Port Colborne, Ontario, an employee of the International Nickel Company, Port Colborne, disallowed by the Workmen's Compensation Board. 3. In what departments of the company did Mr. Nelson Davison work. 4. How were these departments shielded from airborne carcinogens. 5. What are the implications of this disqualification, touching on all employees, such as progress chasers, who move about industrial operations, and who sometimes work in the office and sometimes are in the plant. 6. How well informed is the Board on the incidence of new research in regard to possible employment hazards in industrial production. What liaison exists with the Department of Health in this regard. 7. To what learned journals did the Board subscribe in the last complete year for which records are available. Please tabulate.
57. *Mr. Haggerty*—Enquiry of the Ministry—1. With respect to workers being exposed to new materials that are proving to be carcinogens, what continuing steps is the Minister of Health taking to evaluate new materials in this regard, and to re-evaluate older, more traditional materials in the light of new knowledge as to their carcinogenic and other hazardous properties. 2. What continuing liaison exists between the Research Laboratory of the Department of Health and the Workmen's Compensation Board in this regard. How are the Members of the Workmen's Compensation Board kept abreast of new hazards that might be expected to confront them in compensation cases. Is there a bulletin or journal advising them of new developments in these areas. 3. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

# NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

5. *Mr. Sopha*—Resolution—That, in the opinion of this Legislature, it ought to be an offence for any person to eavesdrop on the conversation or actions of other parties by any means whatsoever, except under the strictest controls as prescribed by law.
13. *Mr. Jessiman*—Resolution—That financial assistance should be provided to needy students in our primary and secondary schools, as well as in university to ensure that no one is forced to drop out of the school system as a result of economic pressure.
18. *Mr. Peacock*—Resolution—That, in the opinion of this House, the Ontario Housing Corporation, in respect to the displacement of tenants from lands acquired directly or at arm's length by the corporation, should be subject to the provisions of The Expropriations Act, 1968-69, (Bill 5), in the same manner as the Crown.
27. *Mr. Brown*—Resolution—That, in the opinion of this House, persons on Old Age Security and/or welfare allowances and/or Unemployment Insurance should be carried free of charge on the GO train service.
28. *Mr. Newman* (Ontario South)—Resolution—That present highway traffic regulations which require a motorist to stop when approaching a school bus from either direction on any Ontario roadway with a speed limit in excess of 35 miles per hour is insufficient for the safety of elementary and secondary school children boarding and leaving school buses, and (a) that the regulation be amended to require motorists to come to a full stop when approaching a stopped school bus with flashing red lights regardless of the speed limit within the area, except on 4-lane controlled access roads, and remain stopped until the flashing red lights are disengaged, and (b) that the colour for school buses be standardized, preferably a Department of Highways yellow.
29. *Mr. Peacock*—Motion for return—For agreement between Ontario Housing Corporation and Montreal Trust Company effective May 1, 1969 respecting the Flemingdon Park and Tandridge public housing projects, and any associated papers showing the comparative costs of administrative, inside and outside maintenance and any other management services, apart from amortization costs, to be undertaken by Montreal Trust Company as against the cost of these services now provided by O.H.C. showing (a) the total cost, and (b) labour cost per unit or for each project.
31. *Mr. Reid* (Scarborough East)—Resolution—That this House favours the abolition of the borough Boards of Control of Metropolitan Toronto and the election of the Chairman of the Metropolitan Board and deplores the failure of the Minister of Municipal Affairs to bring about such democratic reform of the government in Metropolitan Toronto.

32. *Mr. Shulman*—Resolution—That the report of the Ontario Securities Commission on Canadian Central Holdings be made public and that appropriate charges be laid as recommended in the report.
33. *Mr. Nixon*—Motion—Because of the resignation of the entire staff of the Indian Development Branch and the complete lack of policy and program put forward by the government in relation to Indian matters, this House has no confidence in the government, and in particular censures the Minister of Social and Family Services and believes his service in the government is no longer in the best interests of Ontario.

(h) Was the Ontario Northland Transportation Commission involved in any arrangement for the use of its microwave facilities or wire circuits for the purposes of such instruction, and, if so, will the Minister table a copy of this agreement or contract. (i) Have discussions taken place between the Department of Education and the O.N.T.C. regarding the possible use of its microwave link to carry television to Moosonee, and if so, with what result.
55. *Mr. Peacock*—Enquiry of the Ministry—1. 56. *Mr. Haggerty*—Enquiry of the Ministry—1. Is Carcinoma of the Left Middle Turbinate classified as an industrial disease. 2. On what grounds was claim No. S 7805085, Mr. Nelson Davison, aged 56, of R.R. No. 1, Port Colborne, Ontario, an employee of the International Nickel Company, Port Colborne, disallowed by the Workmen's Compensation Board. 3. In what departments of the company did Mr. Nelson Davison work. 4. How were these departments shielded from airborne carcinogens. 5. What are the implications of this disqualification, touching on all employees, such as progress chasers, who move about industrial operations, and who sometimes work in the office and sometimes are in the plant. 6. How well informed is the Board on the incidence of new research in regard to possible employment hazards in industrial production. What liaison exists with the Department of Health in this regard. 7. To what learned journals did the Board subscribe in the last complete year for which records are available. Please tabulate.
57. *Mr. Haggerty*—Enquiry of the Ministry—1. With respect to workers being exposed to new materials that are proving to be carcinogens, what continuing steps is the Minister of Health taking to evaluate new materials in this regard, and to re-evaluate older, more traditional materials in the light of new knowledge as to their carcinogenic and other hazardous properties. 2. What continuing liaison exists between the Research Laboratory of the Department of Health and the Workmen's Compensation Board in this regard. How are the Members of the Workmen's Compensation Board kept abreast of new hazards that might be expected to confront them in compensation cases. Is there a bulletin or journal advising them of new developments in these areas. 3. Will the Minister comment in particular on a letter dated April 3, 1969, addressed to the Medical Officer, Claims Department, Workmen's Compensation Board, 90 Harbour Street, Toronto, Ontario, with copy to Dr. Mastro-matteo in the Department of Health; relating to the case of Mr. Nelson Davison, age 56, of Rural Route No. 1, Port Colborne, Ontario; Workmen's Compensation Claim Number S 7805085; Diagnosis Carcinoma of the Left Middle Turbinate; letter signed by Dr. R. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

58. *Mr. Peacock*—Enquiry of the Ministry—1. 65. *Mr. Reid* (Scarborough East)—Enquiry of the Ministry—Since the Minister may request from the Principal of Forest Hill Collegiate Institute in the City of Toronto "information . . . respecting the discipline of the school . . . and any other matter affecting the interests of the school" under Section 22 (2) (g), of The Schools Administration Act: (a) does the publication of a mimeographed newspaper by a group of high school students constitute grounds for suspension of some of those students by the school principal under Section 22 (2) (k); and (b) does the free association of a number of individual students into a group constitute grounds for suspension of some of those students by the school principal under Section 22 (2) (k).

What is the population-dentist ratio recommended by the World Health Organization.

# NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

5. *Mr. Sopha*—Resolution—That, in the opinion of this Legislature, it ought to be an offence for any person to eavesdrop on the conversation or actions of other parties by any means whatsoever, except under the strictest controls as prescribed by law.
13. *Mr. Jessiman*—Resolution—That financial assistance should be provided to needy students in our primary and secondary schools, as well as in university to ensure that no one is forced to drop out of the school system as a result of economic pressure.
18. *Mr. Peacock*—Resolution—That, in the opinion of this House, the Ontario Housing Corporation, in respect to the displacement of tenants from lands acquired directly or at arm's length by the corporation, should be subject to the provisions of The Expropriations Act, 1968-69, (Bill 5), in the same manner as the Crown.
27. *Mr. Brown*—Resolution—That, in the opinion of this House, persons on Old Age Security and/or welfare allowances and/or Unemployment Insurance should be carried free of charge on the GO train service.
28. *Mr. Newman* (Ontario South)—Resolution—That present highway traffic regulations which require a motorist to stop when approaching a school bus from either direction on any Ontario roadway with a speed limit in excess of 35 miles per hour is insufficient for the safety of elementary and secondary school children boarding and leaving school buses, and (a) that the regulation be amended to require motorists to come to a full stop when approaching a stopped school bus with flashing red lights regardless of the speed limit within the area, except on 4-lane controlled access roads, and remain stopped until the flashing red lights are disengaged, and (b) that the colour for school buses be standardized, preferably a Department of Highways yellow.
29. *Mr. Peacock*—Motion for return—For agreement between Ontario Housing Corporation and Montreal Trust Company effective May 1, 1969 respecting the Flemington Park and Tandridge public housing projects, and any associated papers showing the comparative costs of administrative, inside and outside maintenance and any other management services, apart from amortization costs, to be undertaken by Montreal Trust Company as against the cost of these services now provided by O.H.C. showing (a) the total cost, and (b) labour cost per unit or for each project.
31. *Mr. Reid* (Scarborough East)—Resolution—That this House favours the abolition of the borough Boards of Control of Metropolitan Toronto and the election of the Chairman of the Metropolitan Board and deplores the failure of the Minister of Municipal Affairs to bring about such democratic reform of the government in Metropolitan Toronto.

32. *Mr. Shulman*—Resolution—That the report of the Ontario Securities Commission on Canadian Central Holdings be made public and that appropriate charges be laid as recommended in the report.
33. *Mr. Nixon*—Motion—Because of the resignation of the entire staff of the Indian Development Branch and the complete lack of policy and program put forward by the government in relation to Indian matters, this House has no confidence in the government, and in particular censures the Minister of Social and Family Services and believes his service in the government is no longer in the best interests of Ontario.

56. *Mr. Haggerty*—Enquiry of the Ministry—1. Is Carcinoma of the Left Middle Turbinate classified as an industrial disease. 2. On what grounds was claim No. S 7805085, Mr. Nelson Davison, aged 56, of R.R. No. 1, Port Colborne, Ontario, an employee of the International Nickel Company, Port Colborne, disallowed by the Workmen's Compensation Board. 3. In what departments of the company did Mr. Nelson Davison work. 4. How were these departments shielded from airborne carcinogens. 5. What are the implications of this disqualification, touching on all employees, such as progress chasers, who move about industrial operations, and who sometimes work in the office and sometimes are in the plant. 6. How well informed is the Board on the incidence of new research in regard to possible employment hazards in industrial production. What liaison exists with the Department of Health in this regard. 7. To what learned journals did the Board subscribe in the last complete year for which records are available. Please tabulate.
57. *Mr. Haggerty*—Enquiry of the Ministry—1. With respect to workers being exposed to new materials that are proving to be carcinogens, what continuing steps is the Minister of Health taking to evaluate new materials in this regard, and to re-evaluate older, more traditional materials in the light of new knowledge as to their carcinogenic and other hazardous properties. 2. What continuing liaison exists between the Research Laboratory of the Department of Health and the Workmen's Compensation Board in this regard. How are the Members of the Workmen's Compensation Board kept abreast of new hazards that might be expected to confront them in compensation cases. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."
